E&A Racing Technical Bulletin- 2017-Foreword

It is of course once more, again my privilege to say a few words to preface the Technical Bulletin for 2017, which I trust you all find helpful, as we are now fast approaching another exciting season of Water Ski Racing in Europe.

I would like to congratulate all who contributed to our successful 2016 season in Europe and further afield, and especially the excellent European Championships in Krems, Austria last August. Against all the odds, it proved a really enjoyable and universally acclaimed successful event.

Another particular success in 2016 was the season end Tenerife international Open which enjoyed participation by skiers from 6 nations

We have another World Championships this coming year, in Seattle, Washington State, USA in late July/early August, and we are hoping for an healthy number of European competitors. We wish Juniors, F2, and Open category skiers and their teams every success.

In 2017 Belgium will again be hosting the incomparable 32nd Viersel Diamond Race on 4th June. For a variety of reasons there will only be this event in Europe in 2017 apart from quite a few International Open events.

The much anticipated 3rd running of the Hanseatic races at Kings Lynn will run two weeks after Viersel. This year as well as being an International Open, it will also form part of the GB national series, as GB Racing is adopting a similar concept for its Nationals this year

National competition in our member countries is fundamental to our sustained future and we must continue do all we can to not only maintain what we have, but also get increased racing activity in as many countries around Europe as possible.

We would love to race in Germany, Holland and Italy once more, and within GB in Scotland and we are still on the case.

We must also continue to work with our Eurokids and Juniors, as it is so important that we work hard to protect, encourage and develop our youngsters because they are the future champions of our sport. Without the newcomers (of all ages), year on year, we are lost!

Once again there will be a full and hectic series of National competitions in GB, Benelux, Austria, and in Spain (Tenerife).

Very many thanks for the ongoing efforts of Martina Ciroux, Vera, and Peter Van Gastel, in yet again regularly implementing improvements and enhancements to the WARAC system this year, including the online a Team Captain Team entry facility.

Your E & A Racing Council continues to strive for the best interests of the sport in the Region, and I say it again, we are of course always open to ideas that you may have for the development and/or improvement of Racing, so do please do let us know what you think!

I must express my personal thanks to the Council for all their ongoing hard work for Water Ski Racing and in particular our Secretary General, Vera van den Bossche for keeping us on our toes!

Once again I wish all participants, judges, other officials and volunteers, an enjoyable, fulfilling, healthy and successful season in 2017, with more exciting, competitive, but safe racing.

Yours as always in water ski racing

Mike Waterman

TEAM DOSSIER

We remind you that the Team Dossier shall have all the necessary information and that the Federation of each team is responsible of this document. It is very important in case of an accident, to show immediately to the authorities, that everything is in order.

The Team Captain, upon arrival, shall give the Team Dossier to the Race Office.

The dossier shall be composed of:

- Copy of the International Licences (Skier - Driver and Observer).
- Copy of Driving Licence (If it exists in the Country of the Driver).
- Copy of the Insurance Policy, with Payment Certificate.
- The Scrutineering Control Form, (the same one for all the season), to be filled in by the Official Scrutineer, at each race.

* * * * *

HOMOLOGATION DOSSIER OF NATIONAL RACES

A Homologation Dossier replaces the registration reports.

You will find a set of these Homologation Dossiers, which will enable to register the performances of all the National skiers, if they are filled and returned, within the 2 weeks after the National Races. (copies of the final results). The lack of homologation for National Races will entail the absence of the skiers of the considered Nation on the "Standing List" and also no voting power for Racing at the Annual Congress of the E&A region and for the first classified advantages are carefully studied by the Racing Council.

As per the other disciplines, a fee of 100,- € per country will be paid for the homologation dossiers.

One National Race, per year and country, will be exempted of that fee obligation.

* * * * *

E&A RACING RULES 2017

The complete set of E&A RACING RULES 2017 has now been compiled for use, and is available on the Racing website www.waterskiracingeurope.com as well as on www.skirace.net.

Year 2017

COMPUTER PROGRAMME

The use of the E&A official Computer Program is mandatory to settle the results of a National and International homologated races. A brand new much improved version of the race programme called WARAC is now available.

The Chief Calculator must send the data base results to the Chief Calculator of the next event.

* * * * *

STANDING LIST

From 1.1.2002, the Standing List only concern to those skiers who are solely competing in national homologated races.

* * * * *

BOAT NUMBERS

Racing Boat Numbers are only attributed by the E&A Racing Council. The list of international boat numbers is on our website www.waterskiracingeuope.com

The Federations have the responsibility of the attribution, for the season, of the numbers allocated, by the Racing Council, for each of their skier boats.

As from 2009 a boat number tax of 5,- € per number will have to be paid each year. Owners who paid for the number will keep this, if not the number becomes available to others again.

For new boat numbers all Federations must contact Mrs. Thea Klarenbeek for approval : info@eurobetonboringen.nl.

Boats with incorrect numbers may not start in a race.

For safety reasons the International Licences issued by the E&A Racing council and delivered by the National Federations to their teams, shall be given to the applicants, according with the following instructions :

- It is the responsibility of the National Federations to deliver the International Licences to experienced boat drivers and observers
- When there is an obligation to be in possession of a boat driving licence issued by the (marine) authorities of their own country, the applicants shall be in possession of such a license
 - Before obtaining an International provisional Licence, the candidates must participate minimum one year in local and National ski races.
 - The applicants shall be in possession of the International rule book and know the content of it.
 - An experienced International driver and an experienced International observer of the National Federation should explain to the applicants the general procedure of international races on lakes, rivers and at sea, for instance:
 - * overtaking other competitors on different circuits
 - * how to manage turns
 - * which is the most usual and safest way to protect a fallen skier, etc.
 - The international licence shall be given as a provisional one, during the first year
 - To obtain the final qualification to participate in the Europe Cup, European Championships or World titled events, the holders of the provisional licence must participate during one year in at least three national races (if possible at sea, river or canal and lake), to gain experience.
 - Driver and Observer shall assist to a first aid training course for emergency situations.
 - Medical Certificate: It is obligatory to present the medical certificate duly completed every two years, as a minimum.
